مقدمة

في عالمٍ أصبحت فيه الصورة أبلغَ من الكلمات، برز الذكاء الاصطناعي كأداة تمنح الجميع القدرة على الإبداع والتعبير البصري.

سواء كنت مبتدئًا لا يمتلك خبرة في التصميم، أو صاحب مشروع يسعى لإنتاج محتوى بصري احترافي بسهولة وسرعة، فإن كتاب "الأوامر الذكية" يأتي ليكون دليلك العملي والمرئي نحو إنشاء صور وتصاميم شخصية وتجارية مميزة بخطوات بسيطة.

يحتوي هذا الكتاب على مجموعة من الأوامر الجاهزة المصاغة بعناية واحترافية في أشهر المجالات. وكل ما عليك فعله هو نسخ هذه الأوامر ولصقها في تطبيقات ومواقع الذكاء الاصطناعي المختلفة، لتتحوّل كلماتك خلال ثوانٍ إلى صور وتصاميم مبهرة.

عن المؤلف

عبد الله ناصر السبّاحي مصمم جرافيك، ومخرج أنيميشن، وأخصائي نفسي. حاصل على درجة البكالوريوس في الأنيميشن بتقدير امتياز مع مرتبة الشرف، وبكالوريوس في علم النفس، إضافة إلى دبلوم في تصميم المواقع ودبلوم في التصميم الجرافيكي.

أخرج ثلاثة أفلام أنيميشن قصيرة حصدت عددًا من الترشيحات والجوائز الدولية، وكان من أبرزها إدراج فيلم "قصة الموكا" ضمن المجلد السنوي للمهرجان الدولي للرسوم المتحركة لعام 2025 في البرازيل.

يقدّم بودكاست "قمرية"، الذي يناقش موضوعات متعلقة بالتصميم، وسيكولوجية المستهلك، والذكاء الاصطناعي.

شارك كعضو في لجنة تحكيم لتقييم مشاريع طلاب قسم الأنيميشن في جامعة التكنولوجيا مارا (UiTM)، إحدى أقدم الجامعات الحكومية في ماليزيا، والتي تأسست عام 1956م، وتضم 34 فرعًا في مختلف أنحاء البلاد، وتُصنَّف ضمن أفضل 500 جامعة على مستوى العالم.

في عام 2019، أسّس موقع "حضارة اليمن" باستخدام تقنيات الواقع الافتراضي والواقع المعزز، وحظي المشروع بتغطية إعلامية واسعة شملت تقريرًا خاصًا على قناة الجزيرة، ولقاءً مباشرًا على قناة الحرة، إلى جانب عدد من القنوات ووسائل الإعلام العربية.

كما ألّف كتاب "دليل المستخدم" لتعلّم الحاسوب للمبتدئين، وكتاب "الأوامر الذكية" الذي يركّز على توظيف الذكاء الاصطناعي في إنشاء الصور الاحترافية.

كيفية استخدام أوامر الكتاب

قبل البدء باستخدام أوامر الكتاب، ينبغي أوّلًا التعرّف على أبرز التطبيقات والمواقع المخصّصة لتوليد الصور والتصاميم بالذكاء الاصطناعي، سواء المجانية (التي تتيح عددًا محدودًا يوميًا من عمليات التوليد) أو المدفوعة وفق الباقات المتاحة.

هناك العديد من المواقع والتطبيقات والأدوات التي تقدّم هذه الخدمة، إلا أنّ كثرتها قد تُربك المستخدم المبتدئ. لذلك، اقتصرت في هذا الكتاب على عرض أشهر الأدوات وأكثرها استخدامًا، بما يضمن وضوح الخطوات وسهولة التطبيق.

وقد تم الاعتماد في هذا الكتاب على ChatGPT، بالإضافة إلى Nano Banana وتطبيق وموقع Freepik الذي يوفّر معظم أدوات الذكاء الاصطناعي، ويمكن استخدام Freepik إمّا عبر تحميل التطبيق على الهاتف المحمول أو من خلال الموقع الرسمي مباشرة.

خطوات استخدام أوامر الكتاب

1 نختار تصميم من التصاميم والصور الموجودة في الكتاب

2 نقوم بالتأشير على كامل النص الموجود تحت الصورة ونعمل نسخ Copy

3 نذهب لأحدى تطبقات الـ AI مثل جوجل جيمني نانو بنانا أو Chat GPT أو تطبيق وموقع freepik.com أو أي اداة تفضلها

4 نلصق الأمر هنا

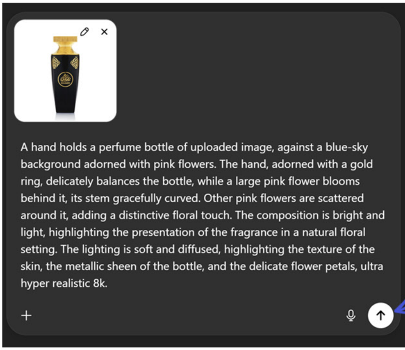

من هنا نقوم باضافة صورة من الموبايل او من الجهاز

لماذا الأوامر بالإنجليزية أكثر دقة؟

معظم مولدات الصور بالذكاء الاصطناعي دُرّبت أساسًا على اللغة الإنجليزية، لذا تكون النتائج عند استخدامها أدق وأكثر مطابقة للتفاصيل. يمكن إدخال الأوامر بالعربية، لكن قد تختلف النتيجة بسبب محدودية فهم المصطلحات العربية وغياب بعض الترجمات المباشرة. كما أن قواعد البيانات البصرية لهذه الأدوات غالبًا مرتبطة بالوصف الإنجليزي.

يمكنكم استخدام الأوامر مترجمة في شات جي بي تي أو جيمني نانو بنانا، لكن في مولدات الصور الأخرى ستظهر فروق واضحة لأن اعتمادها الأكبر على الإنجليزية.

مثال لأمر استُخدمت فيه اللغة الإنجليزية لوصف كيك على شكل حقيبة:

عند ترجمة الأمر نفسه إلى العربية، نلاحظ اختلاف النتيجة:

Generate a hyper-realistic digital illustration of a cake meticulously stylized to resemble a [**graduation cap**], resting on a pristine white table. Show it partially bitten to reveal multiple delicious layers (sponge, frosting, crumbs) and shatter the illusion. Capture the moment of surprise with intricate details in the bite mark. Use a slightly overhead angle to emphasize the contrast between the realistic outer shell and the cake interior. Illuminate the scene with soft, diffused lighting to enhance textures and cast subtle shadows for depth. Keep the background minimal and bright to focus on the deceptive dessert. Employ a vibrant, playful palette for the cake layers against the object-mimicking exterior. Render in a photorealistic style with whimsical undertones, making the reveal both visually convincing and appetizing.

Create a vibrant artistic portrait of the attached image, half body, partially hidden behind a bouquet of dark red roses with soft, realistic petals. Only her sharp eyes are visible, looking through the stems and petals directly at the camera, with a soft, captivating expression. The soft, beige background creates a tonal harmony with the flowers. The lighting is soft and diffused, highlighting the intensity of her eyes and the delicate texture of the petals. Vertical framing, with a sharp focus on the floral details and her gaze, creates freshness, tenderness, and romance. A realistic, high-resolution photography style, with a shallow depth of field and a soft color palette. 3:4 format. Use the attached photo to create this portrait.

Create a high-resolution 3D render of the image (**Cat**), transformed into a solid, sculptural object made entirely of hyper realistic, smoothly eroded stone. The object must preserve the exact shape, proportions, and soft transitions of the original - no melting, no distortion. Keep the orientation frontal or matching its natural alignment - not tilted or rotated. The surface should consist of naturally smoothed stone with organic, rounded forms and gentle curves, resembling a large pebble or river rock worn down over centuries. The texture must display fine, subtle pitting and occasional, randomly dispersed small mineral inclusions, creating an authentic, unrefined look without sharp edges or repetitive patterns

Transform this architectural sketch into a hyper-realistic render. Maintain the same perspective, structure, and design but add photorealistic details: modern **white concrete** walls with subtle textures, large glass windows with reflections, sleek black metal railings, and realistic shadows. Surround the building with lush greenery, detailed landscaping with grass, shrubs, and natural stone. Add a clear blue sky with soft clouds and natural sunlight for depth and realism. The overall look should be contemporary, clean, and lifelike, as if photographed with a high-end camera.

A hyper-realistic, mid-air exploded view of a towering veggie burger with multigrain bun, sharp cheddar, grilled mushroom patty, roasted red pepper, and crisp spinach leaves, all floating in a rich golden-orange background. Fresh herbs, breadcrumbs, and red cherry tomatoes hover in dynamic suspension around the ingredients, as if caught in a flavorful gust of wind. The lighting is warm and directional, highlighting moisture droplets, textures, and sheen across every layer. Photorealistic rendering with extreme depth of field, dramatic shadows, and vibrant organic color grading evoke the sense of a fresh, gourmet plant-based meal captured in an action freeze-frame.

A Realistic Portrait Of A Person Wearing A Shimmering Deep Green Balaclava Studded With Orange Crystals. An Deep Green Quilted Jacket Glowing With A Shimmering Light. Only Her Expressive Eyes Are Visible, Adding Mystery And Intensity. Small Orange Birds Perch Gently On Her Hand And Shoulder, While Others Fly Gracefully Around Her, Creating A Balanced And Interesting Frame. The Background Features Lush Dark Green Foliage And Delicate Pink Flowers, Enhancing The Dreamlike, Painterly Mood. The Lighting Is Dramatic And Soft,giving The Scene A Blend Of Hyperrealism And Classical Painting Style. The Atmosphere Is Ethereal, Modern, And Poetic.

Use the attached image of the model as facial reference and physical features, keeping real face and natural hairstyle. Editorial studio portrait, fit body, youthful and elegant, wearing a white tailored suit with a matching top. The poses seated with one arm casually resting on head, exuding sophistication and confidence. Expression is poised and graceful, with direct gaze. Minimalist setup with a plain gray studio background. Soft diffused studio lighting highlighting the natural facial features and authentic hairstyle, subtle shadows for depth and definition. Eye-level camera angle, three-quarter body framing, balanced composition emphasizing elegance and posture.
Captured with a Canon EOS R5 full-frame DSLR, 85mm f/1.8 lens for shallow depth of field and natural texture. Style: High-end editorial fashion photography, professional clean finish, Vogue-inspired aesthetic.

The image uploaded wearing a brown coat and holding a white coffee cup. He is standing outdoors in front of a old cafe.

In **a desert background,** uploaded image with a bouquet of flowers, the head raised to the sky.

Ultra-realistic portrait, 8K, using the attached image as reference. Surround the person with several realistic butterflies in shades of blue and light yellow - one resting on the shoulder, others flying near the face and among the hair. Background: solid deep teal-green with soft depth and subtle bokeh. Lighting: soft and diffused, creating a delicate, ethereal atmosphere. Photographic high-definition style, sharp focus on the face and butterflies, conveying lightness, natural beauty, and serene elegance.

A powerfully composed image for the uploaded image half body. He wears a simple gray embroidered shirt. The lighting is nighttime, artificial, with a blurred background suggesting illuminated buildings. He wears a tailored suit, adjusting his lapels with nonchalant confidence. His gaze, directed away from the camera, conveys poise and calm. Cinematic lighting with a soft 45-degree key light and subtle ambient light define the angles of his face and the elegant texture of his clothing. Shot on a Sony Alpha. Thanks to the 7R IV and 85mm f/1.4 lens, the shallow depth of field provides a luxurious bokeh effect, ensuring the subject remains the main focus. The medium shot and slight tilt of perspective add suspense, while the symmetrically composed framing enhances the sense of precision and control.

In a remote corner of the café, a monstrous coffee roaster rumbles to life. The sound of heavy machinery fills the air as the tiny workers adjust its massive dials. One worker, standing on a platform, adds a heap of green coffee beans into the massive hopper, watching as they disappear into the dark, spinning drum. The giant roaster slowly turns the beans, heating them to perfection. Every few moments, the workers check the color and aroma of the beans as they slowly change from pale green to a deep, rich brown. With an intense hiss, the roaster stops, and the workers spring into action, quickly removing the perfectly roasted beans into large bins, the rich scent of fresh coffee filling the entire room.

A high-definition, vivid image of tea being poured in a stream from a traditional brass kettle into a small, earthy clay kulhad (cup) placed on a textured stone ledge. The air is alive with motion-tea leaves, crushed spices (cardamom pods, cloves, cinnamon shards), and ginger flakes seem to hover and swirl around in mid-air as if carried by a fragrant wind. The chai is visibly steaming, rich in caramel and ochre tones, with frothy bubbles forming at the top. The backdrop **Arab middle eastern village**, and warm ambient tones. The image should feel grounded, nostalgic, aromatic, and culturally vibrant.

Ultra-realistic close-up 3D render of a luxury wall-mounted signage displaying the uploaded logo. The logo is made of polished brushed metal in rich gold color, with sharp beveled edges and subtle reflections. Mounted on a matte-finish rectangular panel with clean borders, matching the building facade. The panel is embedded into a modern architectural wall with smooth, black-colored surface and precise grooves. A warm spotlight from above casts soft highlights and gentle shadows, creating a premium, elegant atmosphere. Shot at a slight angled perspective for depth, with shallow depth of field and cinematic lighting. Extreme detail, photorealistic, no visible imperfections. The logo must retain its original shape and proportions.

A hyper-realistic miniature scene of tiny workers painting and sculpting a giant uploaded logo. The workers wear construction outfits with helmets and overalls, using paintbrushes, rollers, and scaffolding. Some workers climb ladders while others mix paint in buckets. The logo is bright with a smooth, glossy surface. The environment has a cinematic depth of field with warm studio lighting, creating a vibrant and dynamic atmosphere.

A high-quality uploaded logo of a plain bright white snapback cap placed on **black rocky** background. The front center panel of the cap features an embroidered logo using the uploaded image exactly as it is, without any distortion, modification, or detail loss. The logo is seamlessly applied and scaled proportionally, as if it is stitched directly onto the cap. The cap has no additional patterns or decorations. The lighting highlights the fabric texture and the embroidered details of the logo.

Generate this logo as a soft 3D pillow, where the entire shape of the pillow follows the exact form of the logo as if the logo itself has been transformed into a cushion. The pillow must retain the original shape and proportions of the logo precisely, with subtle rounding along the edges due to the soft fabric and inner stuffing. The pillow surface should be made of realistic fabric such as smooth cotton or linen, with visible stitching along the outer edges of the logo shape. The fabric should show natural wrinkles, creases, and subtle texture. Place the pillow on a modern cream-colored sofa in a well-lit cozy interior space. Use soft natural daylight to cast realistic shadows and highlights on the pillow and sofa surface, emphasizing the 3D volume and softness of the material. Use a 3:4 vertical portrait aspect ratio. The logo must retain its original shape and proportions.

Transform this logo into a 3D metallic foil balloon matching the original logo's color. Slightly inflated with realistic folds and reflections. Attach a thin, realistic balloon string to the bottom knot, letting it hang naturally downward or sway slightly. Place the balloon floating in a bright, green park under daylight with soft shadows and shallow depth of field. Make sure the balloon reflects the surrounding light and environment subtly, with the metallic surface catching sun highlights. The balloon must look elegant, playful, and photorealistic.

Create this logo on the left chest of an oversized, short-sleeved t-shirt. The logo is small, and is worn by an Arab person walking around the city during the day. The person is seen from the front or at a slight angle to emphasize the logo placement. The shirt should be comfortable and loose with natural creases and a clear dropped shoulder structure. The t-shirt color is [white], carefully designed with realistic texture under daylight. The person is enjoying a stroll through the city. Use soft outdoor lighting, soft shadows, and a natural pose. The aspect ratio for the portrait is 3:4. Make sure the logo is small, clear, proportional, and clearly visible.

Generate this logo on a stylish tote bag made from raw dark indigo denim fabric, showcasing the rugged and textured appearance of the material with natural folds and stitching details. The logo is placed prominently on the front of the totebag. The bag features thick woven cotton straps in a customizable color. A person is carrying the bag in a casual but different pose — such as holding it down at their side or in motion — not a standard shoulder-carry. The setting is a clean urban environment with soft natural lighting and subtle shadows, highlighting the texture of the denim. Keep the focus on the totebag with a softly blurred background. The scene should resemble high-end fashion lifestyle photography with a realistic and commercial look

A hyper-realistic close-up of a polo shirt featuring a logo that is subtly embroidered directly into the cotton fabric. The stitching should appear fine, flat, and tightly integrated with the weave — showing slight thread texture without excessive depth or puffiness. The embroidery blends naturally into the surface, following the shirt's fabric grain. Use a classic piqué or knit texture on the shirt, with soft folds and detailed ribbing on the collar and placket. The lighting should enhance the embroidery sheen without harsh shadows. The shirt is in a clear bright white color and the background remains clean and minimal. Aspect ratio: 3:4 vertical. The logo must retain its original shape, color, and proportions.

Visualize this logo as a 3D object fully covered in fine soft fur, like a plush toy. Place it floating slightly above a neutral white surface in a clean photo studio with soft ambient lighting and natural shadows. Frame the image in a 3:4 portrait aspect ratio, with centered composition and enough spacing around the logo for clear visibility. The logo must retain its original shape and proportions.

Create a photorealistic vertical image showing a custom acrylic keychain version of the uploaded logo hanging from the zipper of a dark-colored backpack (e.g. black or grey). The logo must retain its original shape, color, and proportions without any alteration. The keychain should have a clear or glossy acrylic layer, clipped with a silver ring. Use soft daylight or diffused lighting to avoid yellow tones. Set the background in a modern outdoor setting, but keep it blurred to maintain focus on the logo keychain.

Transform the uploaded logo into a hyper-realistic 3D ice sculpture. Maintain the logo's exact shape, proportion, and front-facing orientation. The entire form should appear carved from semi-transparent, textured ice with frosted edges and subtle internal bubbles. Surface must reflect light naturally, with visible cracks, refractions, and cool-blue highlights. Place the sculpture standing upright on a snowy surface or frosted glass, under soft, diffused cold white lighting in a snowy outdoor with winter fog and faint sunlight piercing through the trees. Emphasize light scattering, realistic ice depth, and natural shadows to enhance realism. Style: photorealistic, clean, cinematic, vertical composition, high-resolution, minimalistic atmosphere.

Render this image as a high-quality 3D emblem standing upright on a circular podium with a clean white matte finish. Rotate the emblem slightly (around 15–25 degrees) to the right so that the logo appears angled, giving it a dynamic and realistic 3D look. Use a soft white spotlight directly from above to illuminate the logo and cast natural, subtle shadows. The background should be pure white with gentle gradients and clean lighting — no color tint. Add faint dust particles floating in the spotlight beam for atmosphere. The logo should appear glossy (but not overly reflective) while maintaining its original shape and colors. The scene should feel premium, minimal, and ideal for a high-end brand showcase.

A realistic 3D rendering of uploaded logo in a yarn style. The logo should appear as if made from soft yarn with visible threads forming the design. Some colors of the logo. The stitching should be clean, with raised yarn to give a 3D effect, while maintaining the sleek, recognizable logo. Soft, neutral lighting, minimal shadows, and a clean white background for a modern, product photography look.

Surround the rocks with fresh green herbs and subtle plants to add a natural contrast. Enhance the atmosphere, moody background light. The earbuds should appear sleek and premium, highlighted by glossy reflections and cinematic lighting, evoking power, freshness, and energy.

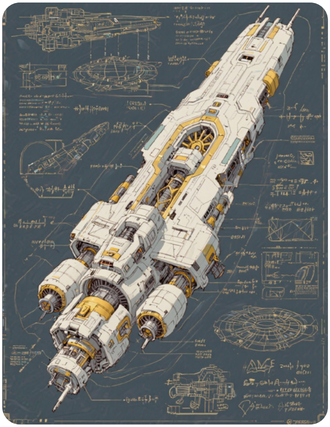

A hyper-realistic digital artwork of a regal emerald crystal snake, gracefully coiled with its head raised in a majestic pose; its scales are translucent, kaleidoscopic facets reflecting light as if carved from emerald gemstones] [The snake wears an ornate, silver-tone crown embedded with green and sapphire gems, catching highlights from cinematic lighting] [The background features a richly detailed, softly lit jungle scene with large, lush leaves and vines - subtly out-of-focus to create depth while still hinting at dense foliage behind the snake] [Cinematic, volumetric lighting from above and behind emphasizes the translucence of the crystal scales and the crown's metallic shine] [Soft prisms of green light and subtle dust particles float in the air, adding mystical realism] [Color palette: deep emerald green, muted jungle green, silver accents, shadowed dark backgrounds] [No text, no watermark, no overlays] [8K ultra-detailed, fantasy realism, ideal for high-end concept art or brand visuals.

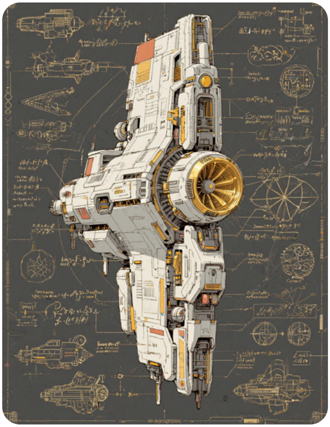

Design a landing page for ‹Asabahi,› specializing in 3D Assets, Unity Game Kits, and tutorials. Create a header with the logo, a captivating headline, and navigation links. Include an attention-grabbing hero banner, key features with icons, testimonials, featured products, ‹About Us› section, clear CTAs, contact info, newsletter signup, and a footer with links. Ensure mobile responsiveness, align with brand identity, and maintain a user-friendly design.

A reimagined Mandalorian warrior standing proudly, adorned with a unique porcelain-inspired suit of armor. The armor retains the iconic Mandalorian silhouette, featuring sleek and angular plates, but is redefined with intricate blue floral patterns reminiscent of traditional Chinese or Delft pottery, seamlessly integrated across the glossy white surface of the armor.

Top-down view of a **yellow cat**, belly up, resting on a richly detailed Persian carpet. A single sunbeam from a window spotlights the cat, creating a dramatic contrast. Cinematic, hyper-detailed, majestic.

Photorealistic hyper-detailed black-and-white pencil sketch of a **deer** face. Overlay the face on a double-exposure image of an abandoned city full of creepers and trees on the left side of the image, gradually turning into a forest as you move from left to right.

Isometric cube cross-section, submerged city sector during a flood, elevated monorails above partially underwater streets, five towering pylons emerging from water, rescue hovercraft floating beside a building, two first responders in orange suits fixing submerged wiring on a flooded pylon, dramatic rays of light cutting through heavy storm clouds, shimmering water surface reflecting sunlight, raindrops hitting rooftops, intense light and shadow play, gray background outside the cube, highly stylized -- chaos 20 -ar 9:16 -raw -- profile jze33cp -- stylize 250

Create a hyperrealistic macro photograph [x:y] aspect ratio of a transparent cybernetic [Arabian dagger], captured in extreme close-up. Its exoskeleton is sculpted from clear, glass-like polymers, revealing a mesmerizing inner world of [color] glowing micro-LEDs, nano-scale circuit boards, and ultra-fine mechanical filaments. Intricate gold, silver, and chrome-plated components are embedded throughout its body, reflecting ambient light with refined metallic sheen. Employ stylish soft cinematography lighting to emphasize internal glows, crystalline reflections, and elegant light refractions. The composition should showcase clean lines and precision-engineered aesthetics—strictly high-tech, with no organic textures. A minimal dark pastel background paired with a shallow depth of field enhances the sense of scale, while delicate bokeh adds atmosphere and draws focus to the shimmering, futuristic anatomy. Stylish perspective and half-turn viewing angle.

A 3D AR mobile interface showcasing a luxurious pleated gown on a virtual mannequin. The phone screen acts as a portal, with high-fashion coats, handbags, and shoes hovering around in a show- room-like space. Rich textures, elegant metallic tones, spotlight lighting, futuristic and premium fashion design in a clean modern space.

Create a charming, ultra-cute 3D render in a [X:Y] aspect ratio of the letter '[**A**]' designed as a fluffy monster, where the letter's shape forms its simple, limbless, and headless body. The creature should have exaggerated, cartoonish facial features seamlessly blended into the letter's form. It should radiate emotion such as [**emotion**]. The texture should be ultra-soft and fluffy with vibrant [color] fur, styled like a plush toy but with subtle hyper-realistic details. Use a clear white background to keep focus on the monster, ensuring high contrast. Design with smooth shapes and no complex anatomy. Use professional studio lighting with soft diffused key light to highlight textures, subtle rim lighting for depth, and a gentle fill light to minimize harsh shadows—creating a polished, high-end 3D look.

An ultra-realistic 3D icon of [character in the attached image] is tightly wrapped in a glossy, semitransparent plastic bag that clings to its contours with visible tension, realistic creases, and glints of reflected light. The object rests on a soft light gray or off-white background with subtle shadows grounding it, while the plastic wrap adds a surreal, preserved quality-slightly foggy with mild optical distortion yet still transparent enough to reveal the colors and details beneath. Captured in macro-style, cinematic 4K studio quality, the image features soft but slightly directional natural light to highlight the contrast between the plastic gloss and the object texture. The front-facing, slight top-down camera angle emphasizes the silhouette and form, creating a modern, surreal, and minimalist visual reminiscent of rare collectibles.

A hyper-realistic, cinematic vertical digital artwork of a **silver** color **1997 Mercedes-Benz S-Class,** Car plate number **137 asabahi**, speeding on an icy mountain road during a snowstorm. The car's headlights shine through swirling snow, with motion blur on the road and snow to emphasize extreme speed. Above, a fighter jet flies in the same direction, low and fast, cutting through the stormy sky. Towering snow-covered mountains rise in the background, partially shrouded in mist. The atmosphere is cold, intense, and dramatic, with ultra-detailed textures, realistic reflections on the car's body, and high-contrast lighting for a moody, action-packed scene. 4K resolution.

A hyper-realistic, ultra-detailed vertical illustration of **2007 Hyundai Santa Fe** speeding through a rocky apocalyptic landscape. The vehicle is covered in mud and dirt, its headlights blazing through a storm of dust and debris. Behind it, two ferocious dinosaurs (T-Rex and Velociraptor) charge forward with intense expressions, as if escaping a massive tornado swirling violently in the dark sky. Lightning bolts strike across the clouds. The scene is cinematic, chaotic, and packed with adrenaline, evoking a sense of high-speed survival and raw power. 4K resolution, vertical format, photorealistic style.

A hyper-realistic, cinematic vertical digital artwork of a moss-covered **Mercedes-AMG G 63** parked on a mossy cliff deep in a mystical forest. Behind it, a colossal rhinoceros towers over the vehicle, its entire body draped in vines and moss, exuding a powerful and ancient presence. The rhino's glowing eyes pierce through the misty, enchanted atmosphere. The scene is illuminated by soft, golden light filtering through towering redwood trees, with glowing fireflies floating around, enhancing the magical ambiance. The Mercedes' headlights shine brightly, casting a subtle glow on the foggy surroundings. Ultra-detailed textures, 4K resolution, photorealistic style, vertical composition, viewed from a low angle as if standing beneath the cliff looking up at the vehicle and giant rhino.

Place me sitting on the bonnet of a **white G-Class 2025**, full car, Car plate number **123 asabahi**, with mountains and sunset in the background, casual travel outfit, DSLR travel photo style.

A realistic full-body portrait of the man in the reference photo **170 cm**. Against full **black Mercedes-Benz AMG** parked on a modern city street surrounded by tall glass skyscrapers. He is wearing a dark navy tailored suit with a crisp white dress shirt, paired with polished black leather oxford shoes. His look is elegant and refined, exuding a powerful business and luxury vibe. His pose is confident and relaxed, with his shoulder and back slightly leaning on the car full view, arms resting naturally, as if owning the moment. The atmosphere should feel cinematic and luxurious, ultra-realistic, with natural sunset reflections on the car›s glossy black paint and the glass buildings in the background.

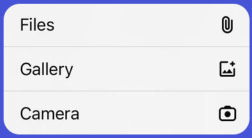

Vertical name card, transparent background, 9x5 cm, designed like a realistic Apple Music player interface. The card is held by a realistic uploaded image, with a small metallic keychain loop at the top. Center artwork: half-body photo of a stylish Indonesian man posing confidently. The card displays: - Playback controls (play/pause, skip, previous), realistic and metallic, - Progress bar with subtle shadow and light reflection, - Song title: «(**@asabahi**)», - Artist name: «(**Abdullah AlSabahi)**», - Soft reflections and glassy effects emphasizing transparency. Background: realistic wooden office desk with subtle objects (laptop, notebook, pen) blurred softly. style: ultra realistic, photo-realistic, 3D depth, soft reflections, natural lighting framing: vertical, card held in hand, centered.

دمج الصور لإنشاء تصميم احترافي

نختار الصور المطلوبة وندرجها في التطبيق

نسخ هذا الأمر (أو نقوم بكتابة ماهو مطلوب تماماً):

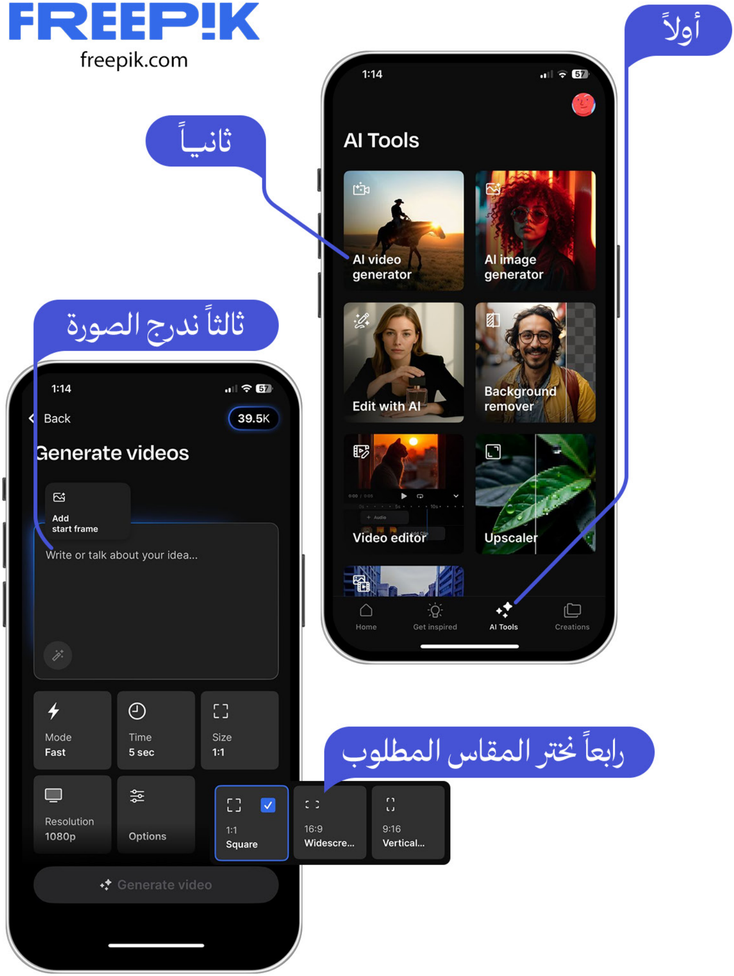

Merge the elements into a single professional, high-resolution image with harmonious colors and balanced background lighting. Ensure a unified, realistic scene with natural shadows, soft highlights, and cinematic depth. The composition should feel cohesive, visually appealing, and polished, with fine details preserved and a refined, lifelike aesthetic.
